

# Managed WiFi: Product Reference Guide

## Managed WiFi

Introducing an even better way to WiFi.

eero

## **eero**

eero is the hub of your connection. It has multiple Ethernet ports, tri-band mesh, and is designed for wired and wireless connectivity to fit anywhere in your home.

## **eero Beacon**

Half the size of eero, these little powerhouses plug directly into any outlet to expand network coverage to every spot in your home – even hallways, bathrooms, and basements.

## Setup

1. Download the eero app for iOS or Android.
2. Walk through setup in the eero app.
3. Rest easy, track and manage smarter WiFi.

**Starting at**

**\$7.95 /mo**

**Restrictions apply. Activation and installation not included. \$7.95 per month includes 1 base eero. Each**

additional eero beacon is \$5.95 per month. For more information call [541-386-8300](tel:541-386-8300). All names, logos, images and service marks are property of their respective owners. ©2018 Gorge Networks Inc. All rights reserved.

## Quick Reference Guide

- Upgrade your WiFi in a snap  
The app guides you through setup and placement in less than 10 minutes. eeros automatically connect to create a wireless mesh network.
- World-class security  
Unlike traditional routers, eero provides automatic security updates and adheres to the strictest security standards. If a vulnerability is discovered, we can quickly update every system.
- Covers any home  
Customize or expand your WiFi by adding as many eeros and eero Beacons

as you need. You can cover a home of any size or shape. The eero can use Ethernet or wireless connections in any combination.

- WiFi with serious smarts

The only system with TrueMesh technology, eero intelligently routes traffic between eeros and Beacons to avoid congestion, buffering, and dropoffs. Consider this the end of WiFi rants entirely.

- Easy-to-use app

With the eero app, you can check your network status, connected devices, and run speed tests from the app dashboard. You can also set up a guest network and create profiles to set schedules and pause the internet on kids' devices.

- Connect it all

eero works directly with Apple, Sonos, Ecobee, Amazon, and dozens of other leading connected home device brands to ensure that consumers'

favorite gadgets just work—no matter the “ecosystem” they’re from.

- Stays new, gets better  
eero software automatically updates every month, keeping your system at the cutting edge. Since last year, we’ve updated eero networks over 30 times, bringing improved performance, new features, and security patches.
- Designed for the home  
eero and eero Beacon are both designed to be compact and elegant, so they can be placed out in the open for optimal performance.
- Entertainment-grade WiFi  
Whether you’re into music, video, or gaming – or all of the above – eero’s got you covered. With its incredible low latency, fast speeds, and whole-home coverage, you can stream 4K video wherever you want, however you want.

“eero one-ups traditional routers in the two areas that matter to most of us:

total coverage and simplicity.”

## Technical Specifications

Required for setup

Supported iOS or Android™ device,  
Internet service (with cable or DSL  
modem, if required).

See [eero.com/requirements](http://eero.com/requirements)

Processor, memory, and storage (Both  
devices) 700 MHz quad-core processor,  
512MB RAM, 4GB flash storage.

Wireless connectivity

eero:

Tri-band WiFi radios, simultaneous  
2.4GHz, 5.2GHz and 5.8GHz wireless

eero Beacon:

Dual-band WiFi radios, simultaneous  
2.4GHz and 5GHz wireless

Both:

**2x2 MU-MIMO, Beamforming, IEEE 802.11a/b/g/n/ac, Thread 1.1 Border Router, Bluetooth® 4.2**

### **Wired connectivity**

**eero: Dual auto-sensing Gigabit ports for WAN and/or LAN connectivity**

**eero Beacon: None**

### **Smart Home Connectivity**

**Thread 1.1 Border Router, Bluetooth® 4.2**

### **Nightlight**

**10 Lumen LED nightlight, with automated dimming**

### **Networking services**

**DHCP, IPv6, NAT, VPN Passthrough, UPnP, Static IP, and Port Forwarding**

### **Security and parental controls**

**WPA2 encryption, Family Profiles**

### **Dimensions**

**eero:**

**4.76in (121mm) x 4.76in**

(121mm) x 1.24in (32mm)

eero Beacon:

4.76in (121mm) x 2.91in  
(74mm) x 1.18in (30mm)

Electrical requirements

100-240 V 0.6 A 50/60 Hz

Warranty and support

1-year limited warranty. See
