What is the Project: Gorge Networks, in conjunction with Sherman County and the Cities of Sherman county, is installing a fiber network. The City of Moro is the first city we will be focused on. The purpose of the network is to provide reliable high-speed internet access and telephone service. The goal of the project is to make these services available to all residents of Moro, and possibly some of the outlying areas, at affordable prices.

Who is Gorge Networks: Gorge Networks is a local service provider based in Hood River, OR and has been around for over 22 years. Gorge Networks is locally owned and focuses on bringing internet access to rural Oregon and Washington. We have been providing service in parts of Sherman county for many years, but this new technology will improve the performance and reliability while keeping the service affordable.

Why is this good for me?: Whether you are an avid user of the internet or just an occasional user, this system will benefit you. First, the speed and reliability will surpass anything available in the area. Second, the price is extremely competitive. Our pricing is listed below:

Service Speed Down/Up (Mbps)	Service Class	Install Charge	Monthly Charge *
20/2	Residential	\$99	\$44.95
100/10	Residential	\$99	\$49.95
Telephone Service	Residential	0	\$14.95

20/5	Business	\$99	\$59.95
100/10	Business	\$99	\$79.95
Telephone Service	Business	tbd	\$19.95

*Does not include taxes and fees

Our most popular residential package is shown below:

100M Internet access	\$49.95	
Telephone service	\$14.95	
Gorge wide calling	Included	
Managed WiFi	\$8.95	
Total	\$73.85

Moro Updates (2/4/2019)

!!!Complete!!! Moro Fiber is available to all residents and businesses within the city limits of Moro. We are going to do the drawing for the free 50" smart TV this month. (the first 50 to sign up for service will be entered into a drawing to win a 50 inch smart TV). Please fill out the form above to order service! You will be contacted to go over any questions you may have and to schedule the installation.

Grass Valley Updates (2/4/2019)

We are taking orders NOW!! The mainline construction is completed and most of the splicing work is completed. We are working through the paperwork part of this project and expect that to be completed this month. Once we get the go-ahead to start back up on the project, we estimate it will be 2-3 weeks when we can start turning up customers. Please fill out the form above and we will contact you to go over your service options.

You can also send email to ShermanFiber@gorge.net or call us at [541-436-0246](tel:541-436-0246)

Rufus Updates (2/4/2019)

We have started the final engineering for Rufus and are ordering some of the main pieces of equipment to get this project rolling. We expect to start work in April (and sooner if the weather cooperates). Please fill out the form above and we will contact you to go over your service options.

Wasco Updates (2/4/2019)

We have started the final engineering for Wasco and are ordering some of the main pieces of equipment to get this project rolling. We

expect to start work in April (and sooner if the weather cooperates). Please fill out the form above and we will contact you to go over your service options.

Biggs Updates (2/4/2019)

We have not started the build in Biggs yet however we will be coordinating with the water project so that we can place conduit for the fiber at the same time. We expect to start construction in May.
