

More Fiber! Faster Speeds!

News

Hood River Fiber Expanded

As part of an effort to bring faster internet speeds to neighborhoods throughout Hood River, as well as decrease dependence on other carriers for network infrastructure, we've been working hard to expand our existing fiber footprint. Last year we upgraded neighborhoods near Westside School, Hood River Middle School, and the Heights so residents can get up to 100M. Our newest upgrade coming this month will be providing 100M service all the way to the West end of May St. We also expanded fiber to businesses downtown and the Heights offering 100M and 1Gig connections. Let all of your multi-player, multi-device, streaming dreams come true! We have plans to expand and install fiber in other Gorge Communities this year, so stay tuned...

Faster Business

Do you remember the torn up roads and ditches along State Street in Hood River last summer? You might not realize that while those utility improvements were being made, we installed fiber optic cable to bring uber-fast internet to downtown businesses, **up to 1Gig!**

Tech Terms Got You Down?

Are you confused when it comes to technical terms? Especially those regarding the internet? Let us define a few that will help you shake that novice feeling. [Read More.](#)

NEW: Local Connection!

Recently added to the line-up in our quirky, fun billboard campaign: **Turtle Island Foods**. As lovers of all things meatless we found this Charlotte's Web theme an appropriate play. This billboard is currently up near Rosauers in Hood River, check it out! *Featured below:* Seth Tibbot, CEO.

Local Spotlight: John Laptad

As a full-time photographer, John needed more than what his existing internet connection could offer. When we upgraded our services from 13th street to 22nd, John was one of the first adopters. His service went from 5M to nearly **100M** overnight! Here's what John has to say since the upgrade: "I am a commercial photographer with numerous national clients. I have a home office and need to transfer many large files every day. My new Gorgenet connection allows me to do that quickly and without issue. It is **THE INTERNET AS IT WAS SUPPOSED TO BE**, quite simply. I am very happy with my connection and would highly recommend it to anyone." Check out John's work at: johnlaptad.com and photo-recon.com.
