WINTER 2016 - Fiber, Facebook & Fraud

FIBER TO THE HOME (FTTH)

LIGHTNING SPEED DELIVERED TO YOUR DOORSTEP

Our first residential fiber internet customer has been successfully turned up! Two residential developments in Hood River can now access infrastructure that provides internet speeds up to **1 Gigabyte**. That's **20X Faster** download than technologies like DSL or cable, and **100X Faster Upload**. The new service also comes with a life-line voice service for outbound 911 calls and local and long distance calling.

We've also been working hard to expand our fiber service offering throughout the Hood River area to offer super-high speed services to businesses in the Port of Hood River and downtown. To date we have over **10 Miles of Fiber** laid! We are looking for other fiber projects throughout the Gorge so let us know where you need us.

"When I learned about the fiber optic connection from gorge.net I honestly didn't realize the impact it would have on my daily life. As most of us do, I use my home computer for running my business, having multiple programs running at a time, downloading pictures and downloading virtual tours. I thought my computer was to blame for its slow connection and freezing up. But with my new FTTH connection my PC has new life, it runs like I just took her out of the box! **Everything I do is instantaneous!** Not to mention my smart TV can go between music and movies with absolutely no buffering at all, I'm over the moon!" Suzette – Realtor, and Happy Gorge Networks FTTH Customer.

Contact our [Sales Department](#) to see if Fiber internet is available in your area!

FACEBOOK, TWITTER & YOUR ISP

We're on [Facebook](#)! And [Twitter](#)! Get in touch to stay up to date on new service offerings, status alerts and more. Like our [Facebook](#) page between now and March 25th and we'll send you a **free T-shirt***, plus you'll be entered to **WIN** our drawing for a **FREE MONTH OF SERVICE!****

*'Like' our Facebook page and send us a Facebook message with your T-shirt size and mailing address to receive your T-shirt!

**Limited to residential broadband services only.

TECH TIP

What's Up with My Router?

From speed, to range, to interference, it can be difficult to know what to expect from your Wi-Fi router. What's the difference between Wi-Fi and Broadband anyway? What should you do if you think you're experiencing interference? How many devices can you connect to your router without compromising quality of speed? All this and more in this issue's article on Wi-Fi routers.

RELIANCE SCAM

A handful of Gorge residents and businesses have recently been contacted by a company called Reliance offering special discounts for services they have allegedly partnered with us to provide. 'Reliance' is reaching out to people currently doing business with us as well as those that do not. These claims are fraudulent and in no way true. If you have been contacted by this company please ignore their advertisements and ask to be put on their 'do not call list.' If the call didn't come directly from us, it's a fraudulent claim!

If you have been contacted by this company we would appreciate any information you can provide regarding your interaction so we can take action to report this activity appropriately. [Send us an email](#) with any pertinent information including (if possible) the phone number the call came from.
